

PARTNER PRESENTATION · 2026

Bespoke furniture, made for partners.

Our own CNC workshop in Serbia, European materials and more than thirty years of craft - available to your brand, your projects and your clients.

Thirty years of making furniture to measure.

Bravura is a bespoke furniture manufacturer with its own workshop in Čačak, Serbia. We design, build and install kitchens, wardrobes, living room furniture and complete commercial interiors, backed by more than thirty years of experience in Serbia and abroad.

Everything is made under one roof. Experienced craftsmen take each piece from the first drawing to the finished product. CNC machinery gives us repeatable precision; hand finishing and inspection give every piece the quality our clients expect.

Alongside our own residential and commercial projects, we manufacture for partners - furniture brands, interior designers, architects, hotel groups and developers who need a dependable production partner in Europe.

MATERIALS

Egger, Kronospan, Kastamonu, Blum, Häfele

CLIENTS

Serbia and international

LEAD TIME

2-3 weeks on average

Every room in a home. Every kind of commercial space.

From a single bespoke kitchen to a full hotel fit-out, we make furniture to measure for residential and commercial clients. Each project is designed around the space, the use and the budget.

Kitchens

Handleless, classic and island layouts in lacquered MDF, veneer or solid wood, with quartz, granite or compact laminate worktops.

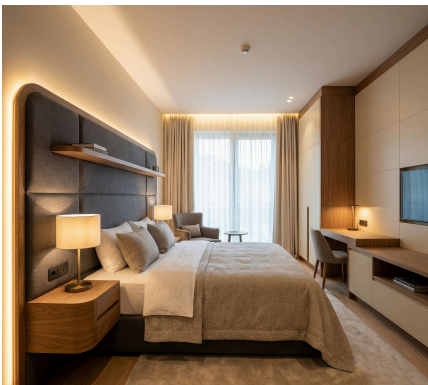

Wardrobes and dressing rooms

Sliding and hinged wardrobes, walk-in dressing rooms and fitted interiors with LED lighting.

Living rooms and media walls

Media units, shelving and built-in storage that define the living space.

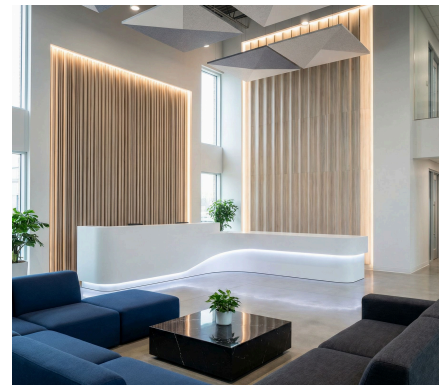

Hotel rooms

Complete room sets manufactured in series - bed, headboard, desk, wardrobe, minibar unit and TV console.

Hospitality

Bars, counters, banquette seating, tables and service stations for restaurants and cafés.

Offices and receptions

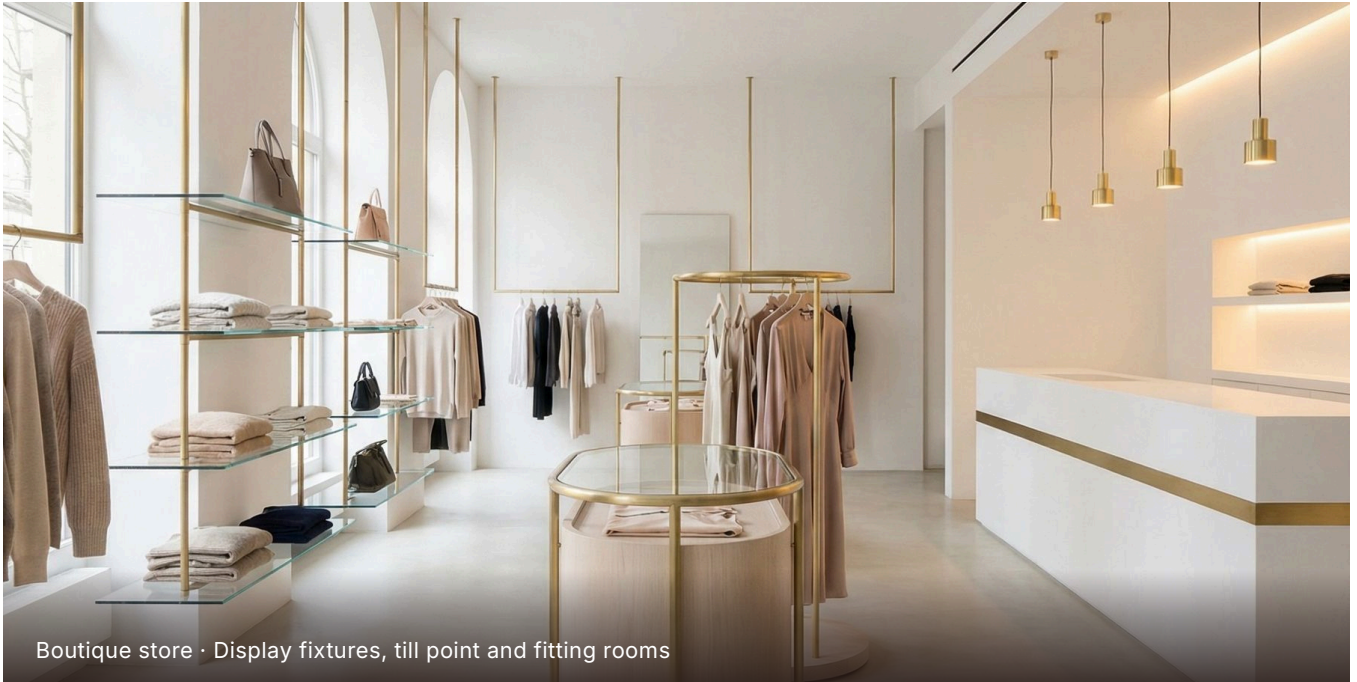

Reception desks, workstations, boardrooms and storage for corporate and coworking spaces.

WE ALSO MAKE

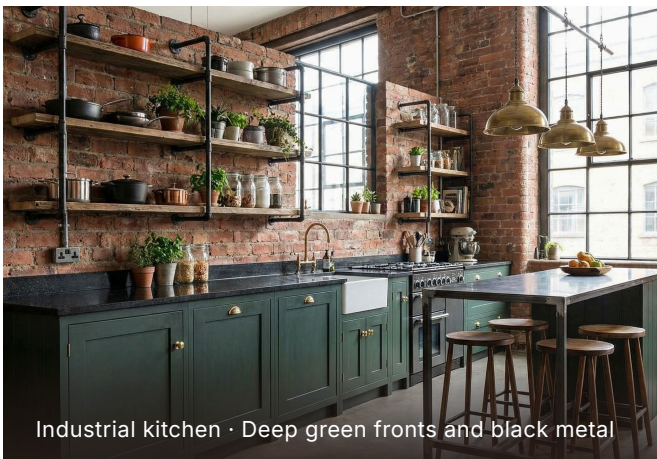

Bedrooms · Kids' rooms · Home offices · Bathroom furniture · Interior doors · Retail fixtures · Solid wood tables

A selection of our concepts.

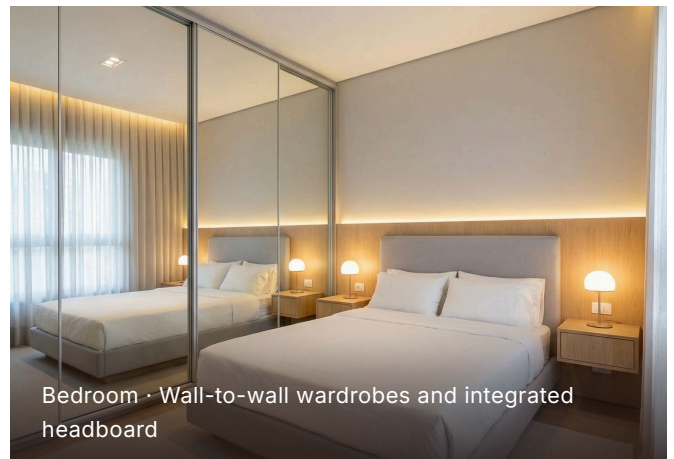

Residential and commercial, modern and classic. A few of the interiors that show the range of what we build.

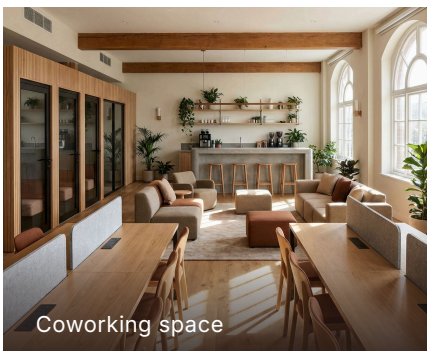

Boutique store · Display fixtures, till point and fitting rooms

Industrial kitchen · Deep green fronts and black metal

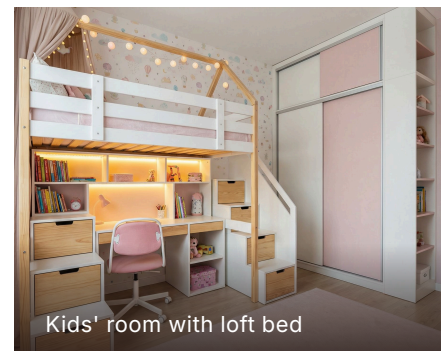

Bedroom · Wall-to-wall wardrobes and integrated headboard

Coworking space

Law firm boardroom

Kids' room with loft bed

Our own workshop. Precision at every step.

Every piece is cut, edged, drilled and assembled in our workshop in Čačak. CNC machinery handles the precision; our craftsmen handle the finish and the final inspection.

CNC machining

Precise cutting, drilling and routing of panel materials, accurate to 0.1 mm for a flawless fit.

Edge-banding and assembly

Clean edges on every panel, then assembly and fitting of hardware in the workshop.

Hand finishing and inspection

Every piece is inspected and finished by hand before it leaves us. No exceptions.

Packing, transport and installation

Careful packing for safe transport, with professional on-site installation where required.

HOW WE BUILD

- | | | | | |
|--|--|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| Specification | Design | Sourcing | Manufacturing | Delivery |
| Your drawings, cutting lists or a brief. We review and confirm every detail. | 3D visualisation and technical drawings. Materials, colours and hardware are signed off. | Panels, veneers and hardware from trusted European suppliers. | Cutting, edge-banding, drilling and assembly on CNC machines. | Quality check, packing and delivery, or installation by our team. |

European materials, specified to your standard.

We work with the materials and hardware you specify, or source alternatives to match your budget through our own supply chain.

Panel materials

Chipboard and MDF from Egger, Kronospan and Kastamonu, in a wide range of finishes.

Chipboard and MDF

Lacquered MDF

Compact laminate and HPL

Plywood and veneered panels

Solid wood and veneer

Oak, walnut, ash and beech, selected by hand and dried to the right moisture content. Lacquered, oiled or stained to order.

Oak, walnut, ash and beech

Natural wood veneers on MDF

Lacquering, oiling and staining

Worktops

Surfaces built to withstand heat and everyday use, cut and finished to your drawings.

Compact laminate

Quartz

Granite

Hardware

Premium hardware fitted as standard, or to your specification.

Blum, Häfele, Grass

Soft-close and push-to-open

Lift-up and sliding systems

Cost-effective alternatives on request

A manufacturing partner for furniture at scale.

Whether you need a white-label product for your own brand, a batch of furniture for a hotel project or a dependable supplier of kitchen components, our workshop produces large runs with consistent quality across every piece.

Batch production

Large production runs with the same quality throughout. Ideal for hotels, serviced apartments and residential developments.

White-label manufacturing

Furniture made under your brand, to your specification, with complete discretion.

CNC services

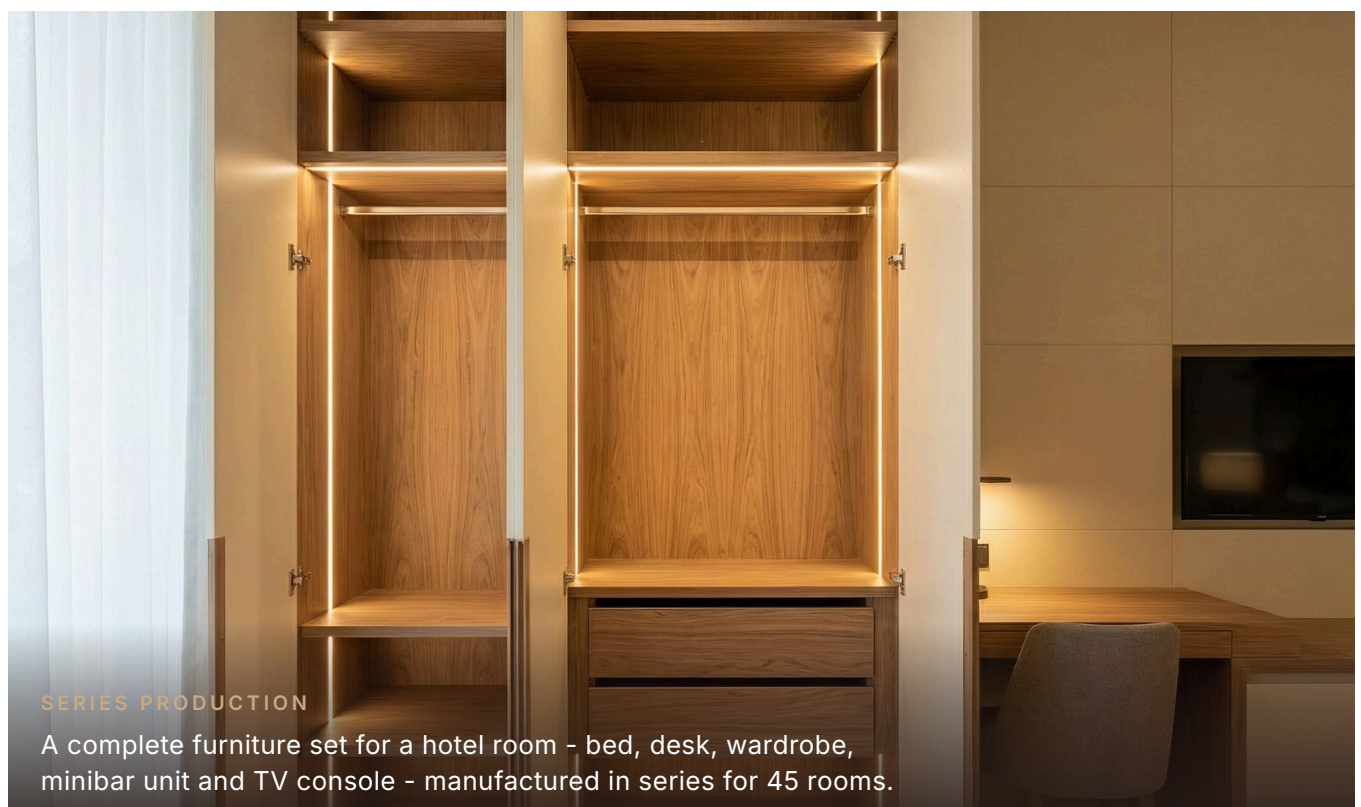

Cutting, drilling and routing produced directly from your cutting lists and technical documentation.

Drafting and design

Technical documentation, cutting lists and 3D visualisations prepared for your projects.

WHO WE WORK WITH

- Furniture brands and retailers
- Interior designers and architects
- Hotel and hospitality groups
- Property developers and fit-out contractors
- Wholesalers and distributors

SERIES PRODUCTION

A complete furniture set for a hotel room - bed, desk, wardrobe, minibar unit and TV console - manufactured in series for 45 rooms.

From your drawing to delivered product.

A straightforward path from enquiry to delivery, with a sample approved before any batch goes into production.

1	2	3	4

URGENT ORDERS

Faster turnaround on request

Complete fit-out of a 45 m² apartment · Kitchen, living room, bedroom and bathroom in a single project

Why partners choose us.

-
- 01 **Precision and consistency**
CNC machinery guarantees identical accuracy across every piece in a run. No variation, no surprises.
-
- 02 **Scalability**
From 10 pieces to 1,000, our capacity flexes to your needs without any drop in quality.
-
- 03 **Flexibility**
We work to your deadlines and your requirements. Rush orders and unusual materials included.
-
- 04 **Reliability**
Transparent communication, deadlines we keep and a warranty on every product.
-
- 05 **Competitive European manufacturing**
Our own workshop and direct sourcing from Egger, Kronospan and Blum keep pricing competitive without compromising on materials.
-
- 06 **One partner, start to finish**
Design, production and installation under one roof. One point of contact for the whole project.

Let's build something together.

Three steps from this conversation to your first delivery.

1

Share a drawing, cutting list or brief

Any format works - technical documentation, a sketch or a reference project.

2

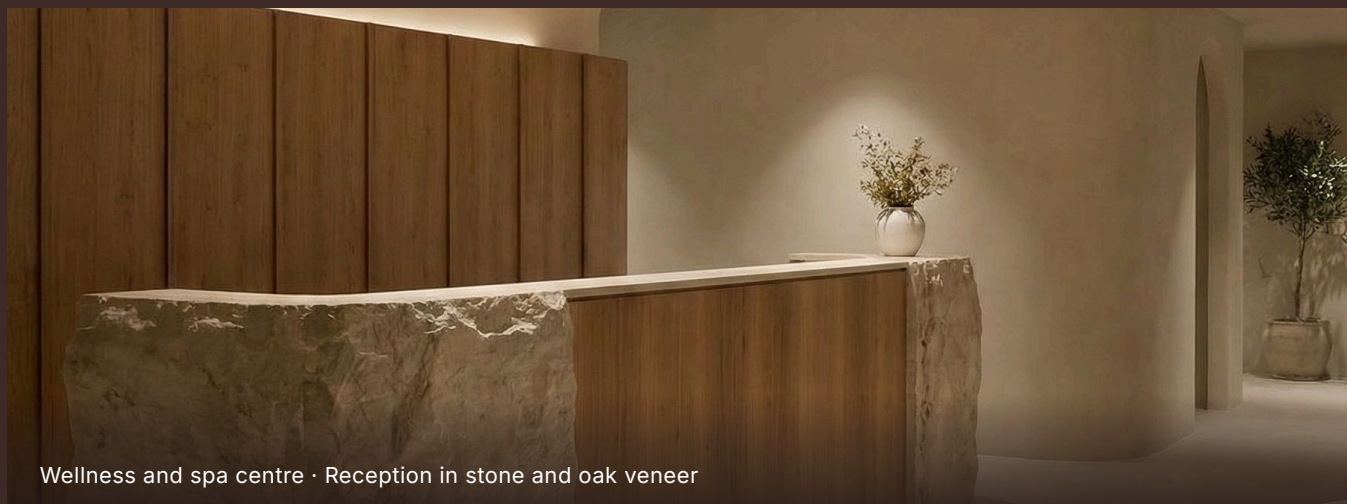

Receive a detailed quote

Costing and lead times within 48 hours.

3

Approve a sample

We produce a trial piece. On approval, production begins.

Wellness and spa centre · Reception in stone and oak veneer
